PROFILE

I am a React Developer with practical experience in creating dynamic and responsive web applications. Proficient in HTML, CSS, and JavaScript, I specialize in writing clean, efficient, and maintainable code. My expertise includes developing intuitive user interfaces, enhancing performance, and contributing effectively to modern web projects. I am highly motivated to continuously learn new technologies and expand my skills to deliver high-quality, scalable solutions.

PROJECTS

○ **Call Center Management System**

- Built a web-based call center solution with separate modules for Admin and Agents.
- Admin Features: Create and manage agent accounts, monitor performance, and track order records.
- Agent Features: Collect customer package details, place and confirm orders directly through the web portal.
- Integrated REST APIs for secure and real-time order management.
- Designed a responsive and intuitive dashboard for seamless user experience.
- Developed using React, HTML, CSS, and JavaScript with focus on scalability and performance.

○ **Stylo Clone (E-commerce Website)**

- Developed a fully responsive e-commerce website inspired by Stylo.
- Built using React, HTML, CSS, and JavaScript.
- Implemented product listing, categories, and cart functionality.
- Designed a modern and user-friendly UI for smooth navigation.
- Focused on code reusability, performance optimization, and responsive design.

○ **Task Manager (To-Do Web App)**

- Developed a task management web app to create, edit, and delete tasks.
- Implemented task categories, due dates, and completion status tracking.
- Added local storage support to save tasks across sessions.
- Designed a responsive and minimal UI for better usability.
- Built using React, HTML, CSS, and JavaScript with focus on clean code and reusability.

EDUCATION

○ **Intermediate** — 2020-2022
Government Islamia Graduate College

○ **Bachelor of Computer Science (Continue)** — 2022-2026
Lahore Leads University
